Good afternoon, here is the signed Daily Work Order for 7/26 activities. We pumped out approximately 50% of the Baker Tank contents. An additional two trucks will arrive on-site at 0700 hours tomorrow (staggered times) to empty the tank. David LeDuff, from the city of Vernon, stopped by and told me that Clean Harbors will be on-site tomorrow morning to remove the drums from the nearby businesses and place inside the site footprint. He estimates up to 20 drums and we scoped out a safe place for them. Please call me if you have questions and I'll be in touch with you after tomorrow's activities. Thanks

Peter Lawrence
